To the best of our knowledge, these are the current Road Atlanta track records for SCCA classes, but we recognize the computer MAY have missed one or two. The competitors in each class are the best editors regarding these matters, so if you see a discrepancy please bring it to our attention at tubadiva@aol.com. Official records must be set during a race session, must be posted on an Official Result form (not on MyLaps) and the car/driver must not have been disqualified for an illegal car.
